Was your internship experience related to your major area of study?

☒ Yes, to a large extent ☐ Yes, to a slight extent ☐ No, not related at all

In the Institute internship program, faculty members are expected to be mentors for students. Do you feel that your faculty mentor served such a function? Why or why not?

Yes, sir did a great job of keeping the communication
between industry and college. He constantly kept a
check on how our learning is going on in industry

What has been the most significant accomplishment or satisfying moment of your internship?

Most Satisfactory moment is to learning about the
gas turbines and learning how magnificent they
are.

What did you dislike about the internship?

Everything is good.

Give suggestions as to how your internship experience could have been improved. (Could you have handled added responsibility? Would you have liked more discussions with your professor concerning your internship? Was closer supervision needed? Was more of an orientation required?)

Overall our internship is good. But it can be further improved
letting students know the nature and of their work in
organization right at the time of applying for the interview
